

Dear Parents,

Positive Place Preschool's preschool program is dedicated to creating an environment in which your child can thrive both academically and socially/emotionally. Our certified teachers go above and beyond to provide a structured, nurturing and safe environment for each and every child in their care. We teach to the whole child, concentrating on language development, literacy, math, science, fine motor, and social emotional development.

Within this packet you will find information regarding pricing, classroom schedules, curriculum and daily requirements. If you choose to enroll your child in our preschool program please contact Nicole Kenworthy at nkenworthy@bgchawthorne.org

Yours Truly,

Nicole Kenworthy

Childcare Director

and

Jaimie Williams

Director of Early Childhood Education
